

# GP Connect

## WebEx Management

### WebEx Interactions

- Submit questions using the chat facility to **'everyone'**
- Please keep chat conversations private
- Refrain from answering questions proposed
- We'll answer questions at the end

**Sound:** During the WebEx all attendees will be muted with the exception of presenters.

Thank you for joining us. We aim to start at **15:00**

# Questions

- Please submit questions in the WebEx chat facility.
- We will aim to get through as many as possible
- Those not addressed we'll pick up separately
- Questions and Answers will be distributed in due course

# GP Connect

**Information and technology**  
**for better health and care**

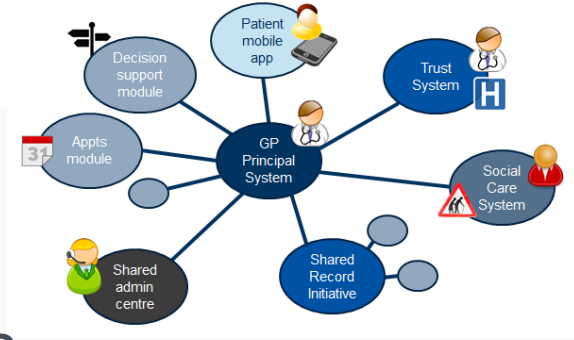

presented by David Whelan,  
Senior Project Manager

# Vision

*GP Connect aims to support **better clinical care** by **opening up information** and data held within GP Practice IT systems.*

## Approach

*The GP Connect vision will be achieved by **standardising integration**, and simplifying the operating model.*

# What Does that *Actually* Mean?

It means:

- The same **HL7 FHIR** interfaces provided by each Principal
- Interfaces will be serviced through the Spine for **simplified access**
- They can be **consumed** by third-party applications
- NHS Digital is commissioning a **capability** not an end system

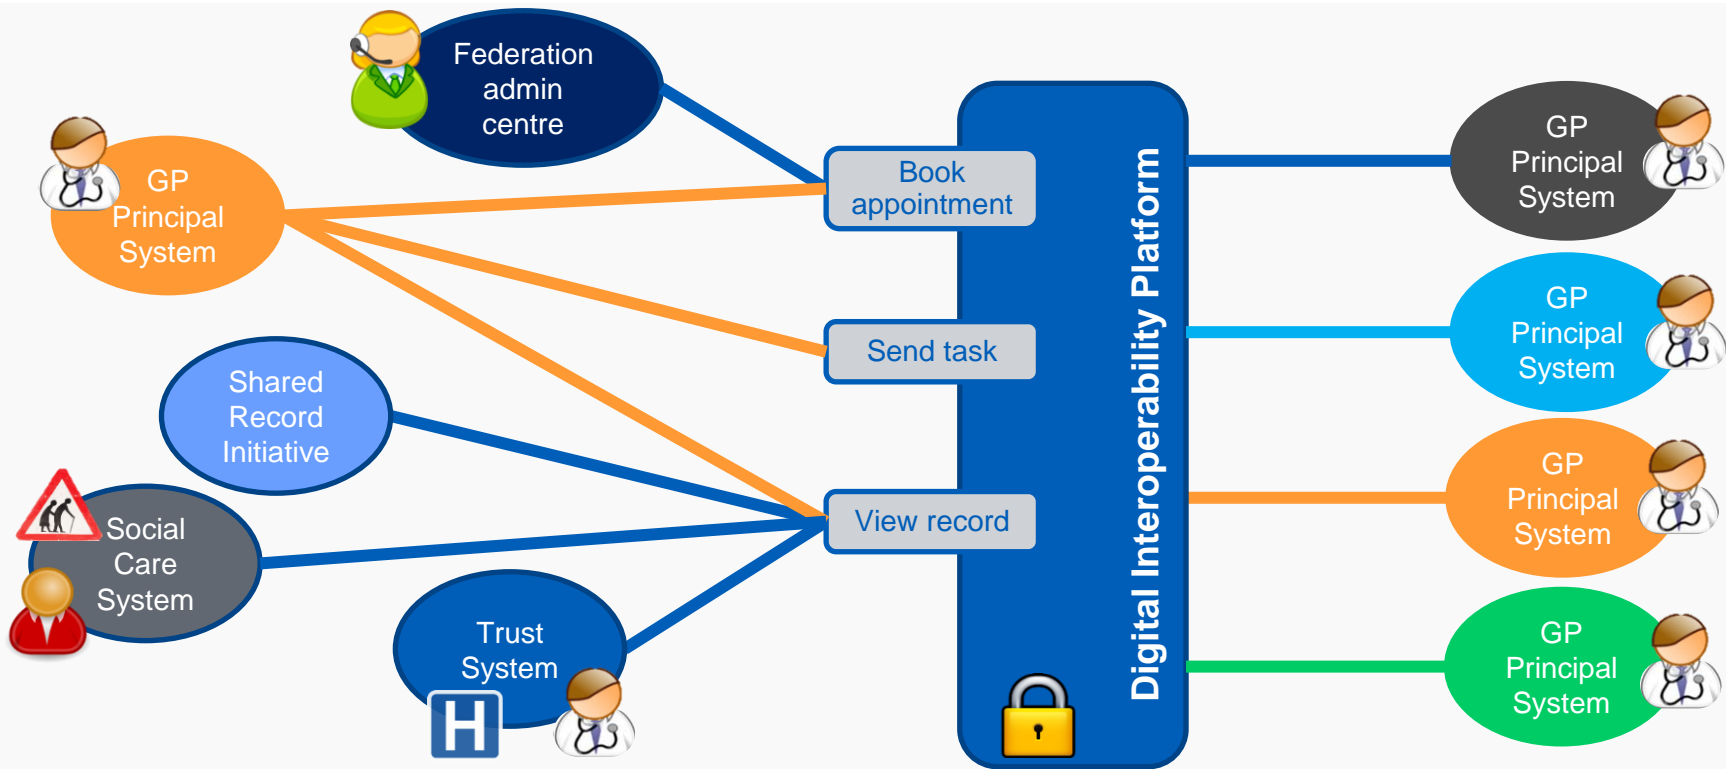

Initial interfaces (scope):

(Supporting GP Federations/Cross-setting Patient Care)

- Appointments API
- Get Record API (Html & Structured)
- Task API (Simple)
- *Digital Interoperability Platform (Secure Proxy etc..)*

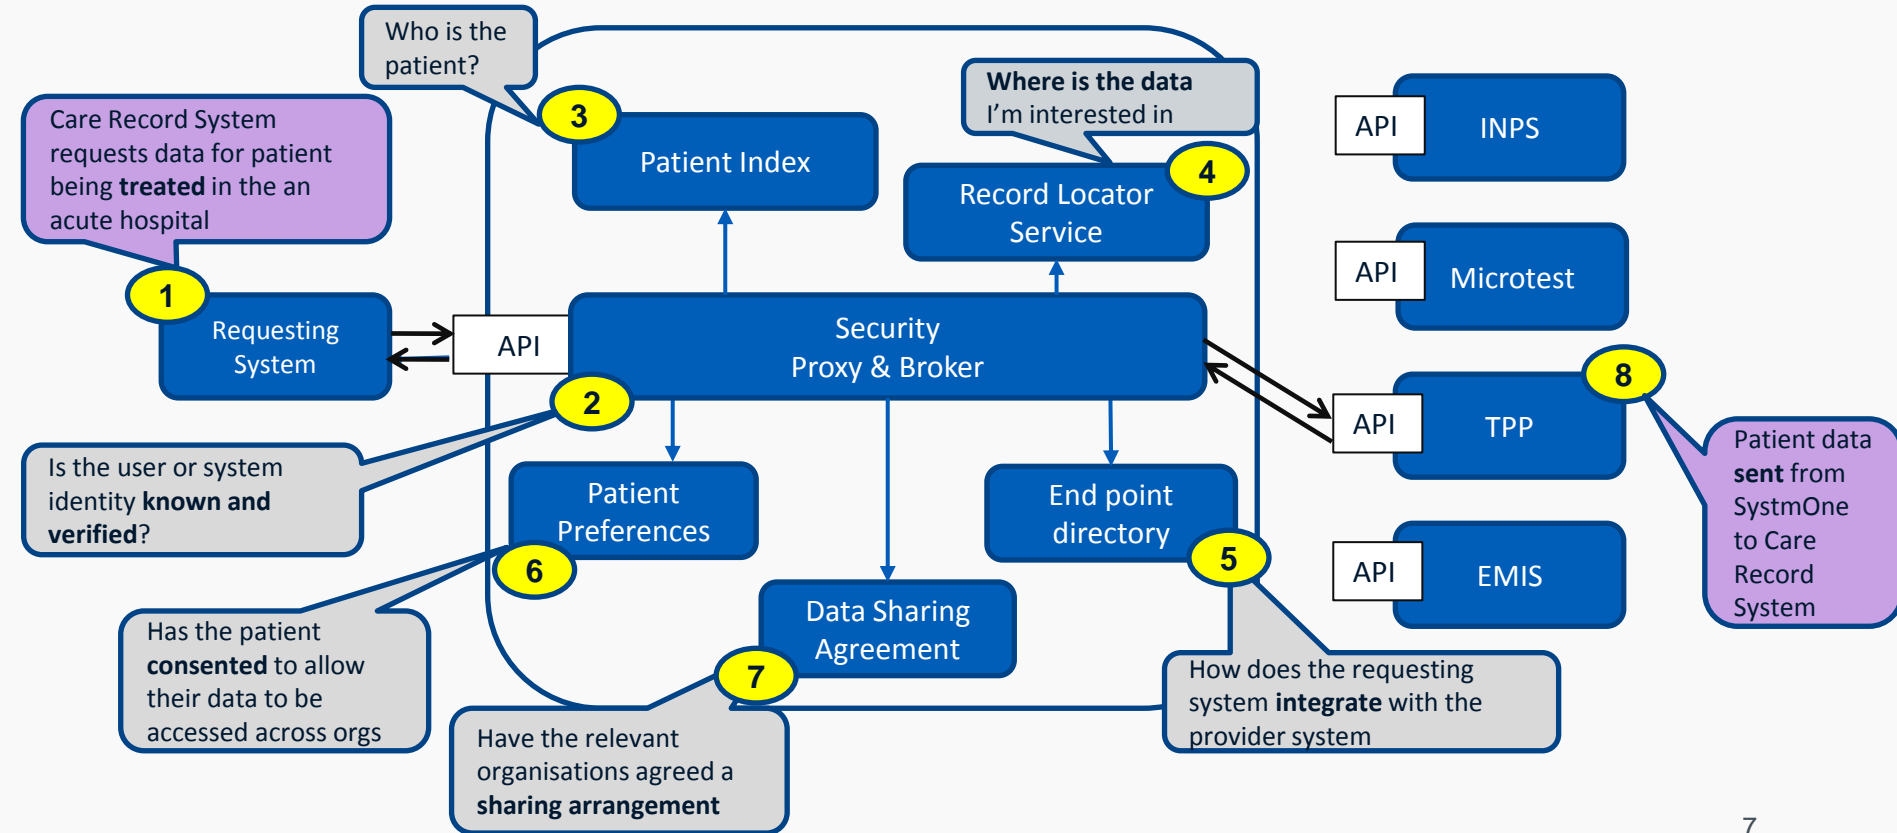

# GP Connect Overview

“Providers”

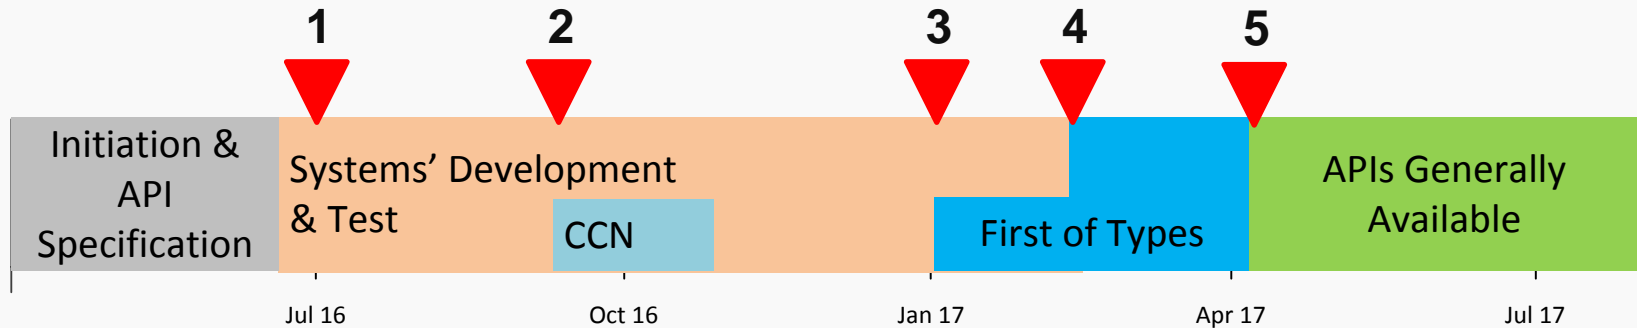

“Consumers”

# Digital Interoperability Platform

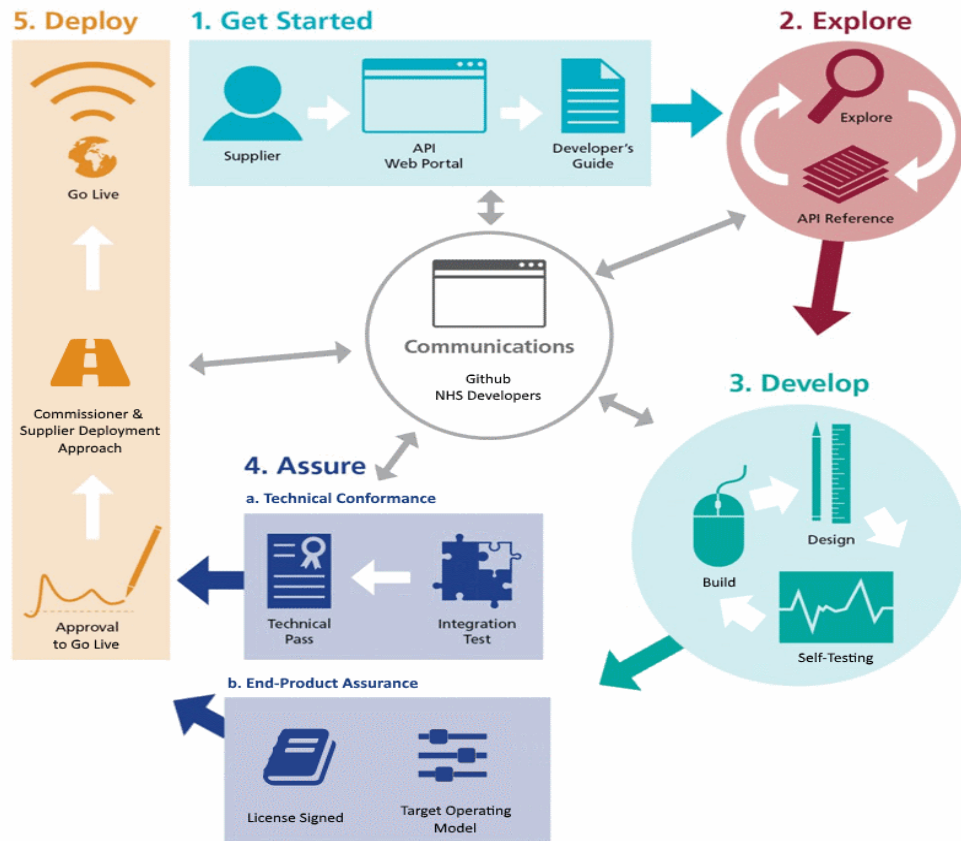

# Key Milestones

- |  |              |
|--|--------------|
| 1. <b>Interop Platform available</b> for testing       | July 2016    |
| 2. <b>CCN issued</b>                                   | Nov 2016     |
| 3. Initial First of Type <b>live</b> (html Get Record) | Jan 2017     |
| 4. Initial <b>Structured Record API</b> planned        | March 2017   |
| 5. Proposed General Roll Out                           | Q2/3 2017-18 |

# Ecosystem

# Contact Us

For any further questions regarding GP Connect, the capabilities on offer, or what the next steps are for Commissioning Bodies looking to engage in First of Type activities, please contact the dedicated GP Connect Mailbox: [gpconnect@nhs.net](mailto:gpconnect@nhs.net)
